Feed The Fish Golf Scramble

Feed The Fish is a camp for children ages 7-12 on Hoffman Lake. Camp runs from June – August, Friday- Saturday. At camp we teach about responsibility, cooperation, and respect for nature and each other. The activities will make the children aware of what they are capable of doing with their lives and how worthwhile it feels at the end of the day to have participated in new adventures. We are a non-profit organization. There are no fees to the children or their families for participating in the camp. We hope that bringing them to Feed The Fish, the children will be able to focus on fun, learn new skills, build friendships, learn about our Creator and enjoy nature.
